

# NOAH CROSSMAN

Cochrane, AB | 403.829.0481 | [noahc1@hotmail.com](mailto:noahc1@hotmail.com) | [noahh.dev](http://noahh.dev)

## SUMMARY

---

Aspiring Full Stack Developer with hands on experience across modern web technologies, including JavaScript/TypeScript, backend development, databases, and cloud ready tooling. Experienced in building projects focused on clean architecture, scalable design, and practical problem solving.

## EDUCATION

---

### Full Stack Web Development Diploma

Jan 2024 – Jan 2026

University of Alberta | Edmonton, AB

## TECHNICAL SKILLS

---

**Programming Languages** Python | TypeScript | JavaScript | C# | HTML | CSS

**Technologies** React.js | Next.js | Node.js | Tailwind CSS | MySQL | PostgreSQL | Docker

## PROJECTS

---

### AGInfrastructure (AGI-X)

Sept 2025 - Present

- Active open-source contributor to AGInfrastructure (AGI-X), improving framework reliability and developer experience. Shipped production frontend features (timezone handling, user management), built and managed robust automated test suites, and unblocked critical issues affecting contributors and downstream users.

### NHL Stats Site

Nov 2025 - Present

- Created a modern NHL statistics platform using TypeScript and Next.js, featuring dynamic API-driven data fetching for multiple players, structured and readable data presentation, and a responsive, user friendly interface built with Tailwind CSS.

### 3D Print E-Commerce Store

Apr 2025 – Jun 2025

- A full featured Django application built to power a customizable 3D printing storefront. This platform enables seamless product management, dynamic order processing, and real time customization for both customers and administrators. With a modern and responsive frontend styled using Tailwind CSS, and robust backend architecture, this application delivers a smooth and intuitive user experience.

## EXPERIENCE

---

### Manager

Boston Pizza | Cochrane, AB

May 2018 – Present

- Manage a team of staff, ensuring high levels of productivity and morale.
- Maintain inventory, update kitchen charts, and track orders utilizing Excel.
- Code invoices efficiently using a POS system.
- Partnered with supply chain companies like Sysco to manage food orders and ensure timely delivery.
